

Construction Services

Our management is highly committed to building a working environment of teamwork and partnerships by doing the right thing, setting aside egos, establishing clear goals, effectively communicating and getting to know and better understand how our partners work best. S. M. Wilson offers a broad range of services including Project Planning, Pre-Referendum, Pre-Construction, MEP/FP Coordination, Construction and Post-Construction services. Whether constructing a new building or rehabbing an existing structure, we are dedicated to helping our clients meet each and every project goal.
